Followup or Acute-only Appointment	\$ 79
Home or Hospital Visit Fee	\$ 39
After-Hours Appointment Fee	\$ 39
Homeopathic Remedies (each)	\$ 15
Family Discount (per appointment)	\$ -10

Explanation of Appointment Costs

Our fees are based on a cost of \$79 per hour per client. Intake appointments for chronic complaints are scheduled for two hours. Case workup takes a minimum of an hour after the appointment. So, the adult intake fee is for three hours. That cost includes the two-hour appointment, the full case workup, a short prescription appointment the next week and the first homeopathic remedy. Children under twelve often take less time, so there's a half-hour discount built into the child intake fee.

Cases with complex medical histories or pathology may require the client to return the next week to finish the intake. Should this be necessary, the extra visit is billed as a followup appointment.

Followup appointments last one hour and cost \$79. Followups are scheduled for every 3-6 weeks depending on the health of the client. As health improves, appointments can be less frequent.

We follow each intake appointment with a prescribing appointment one week later. This lasts about 10 minutes and can be conducted over the phone. This is our chance to confirm a prescription and your chance to ask any questions you may have about homeopathic treatment. The cost of this time is included in the intake fee.

Visits for acute complaints, like a cold, sore throat or flu, usually take less than an hour and so are billed at \$79.

Family Discount

A family with more than one person in treatment can deduct \$10 from the cost of each appointment.

Missed Appointments

We require 24-hour notice to cancel an appointment. Missed appointments will be billed at the usual rate.
